Introduction

With a distant thump and a billow of grey the cannonball approach the thin woods and the slope behind them, its force expended in the effort of crossing more than a thousand yards in the clear morning air. It burst through the green leaves and branches, splintering a dew covered trunk and then vanishing from view into the invisible clearing beyond. The cheers of the Elf gunners mingled with the sound of thousands of Elven feet marching in perfect order in the distinctive blue tunic columns that had won the tyrant Mordred and his Ferach Imperial Armee the largest Empire that Valon had ever known. Only a few lands like Catalucia held out, and few enemies like the accursed Albion scum in their stubbornness. They never knew when they were beaten; they never knew when to kneel to the inevitable.....

The leaders of the Ferach Empire, these fine soldiers form the core of all troops under their Tyrant Emperor Mordred. Some of the fastest and most motivated troops of the Napoleonique Wars of Valon.
